

Celebrating a Decade of Excellence: EWIS Empowers the Future of Hambantota Through Art and Innovation

In every brushstroke, every stroke of creativity, and every innovative endeavor, lies the potential to shape the future. The Hambantota Education Zonal Office organized an art competition at St. Mary's College, and at the heart of this creative extravaganza was our unwavering commitment to fostering education and art in the region. We were able to be a part of this remarkable event organised by the Educational Zonal Office in Hambantota as the main sponsor and witness young talents of our young generation on 21 October held at the St Mary's College, Hambantota

Empowering Through Art:

The art exhibition was an initiative aimed at nurturing the artistic skills of the school children from Grade 1 to 13 of the Hambantota district. It provided a platform for these young talents to express themselves, turning the canvas into a testament to their creativity and potential. Many school children, bursting with artistic passion, participated in this event, making it a resounding success.

EWIS: Supporting the Future:

EWIS, a pioneer in IT and technology, was proud to be the main sponsor of this art competition. This sponsorship was more than just a gesture of goodwill; it was a part of a larger celebration. As we approach November, we are gearing up to commemorate the 10th anniversary of our EWIS Original Device Manufacturing (ODM) factory in Sooriyawewa, Hambantota. This decade has been marked by excellence in providing high-tech IT devices and solutions, and as we reflect on our journey, we couldn't think of a better way to celebrate than by supporting the local community.

Education, Innovation, and Empowerment:

At EWIS, we are not just a tech company; we are a company that touches lives. We recognize that the power of a nation often lies in its technological prowess. As part of our commitment to the community, we make a conscious effort to empower the education of our kids. This art exhibition is just one example of our dedication to fostering creativity and knowledge.

Marking Sri Lanka's Footprint:

We've ventured into uncharted territories as a pioneer in the IT industry. Setting up Sri Lanka's first and only world-standard Original Device Manufacturing (ODM) factory in Sooriyawewa, Hambantota is a testament to our commitment to not just the local economy but to Sri Lanka's prominence in the global technology landscape.

In today's world, the power of a nation is closely tied to its technological edge, and we believe that by contributing to the Sri Lankan economy, we are marking Sri Lanka's footprint in the global arena.

A Brighter Tomorrow:

As we look back on the success of the art competition and ahead to our 10th-anniversary celebration, we are filled with hope and enthusiasm. The synergy between art, innovation, and education is a powerful force for positive change, and we are proud to be a part of it.

This is not just our journey; it's a collective endeavor to build a brighter and more creative tomorrow. At EWIS, we remain committed to our mission of empowering education, fostering creativity, and advancing technology, all for the betterment of Hambantota and Sri Lanka as a whole.
