

Fostering Future Achievers: Our Role as the Official Technology Partner for the 'පුංචි අපේ නැණ මිහිර ගිණයත්ව සම්මන්ත්‍රණ මාලාව' Program Initiated by Sri Lanka Rupavahini Corporation

As a responsible corporate entity in Sri Lanka, EWIS has always embraced its social responsibilities with enthusiasm. Today, we are thrilled to announce our partnership with the "පුංචි අපේ නැණ මිහිර ගිණයත්ව සම්මන්ත්‍රණ මාලාව," an educational initiative that is geared towards shaping the minds of our future scholars.

Imagine a group of vibrant individuals, each on the threshold of an educational journey. These are the participants of the "පුංචි අපේ නැණ මිහිර ගිණයත්ව සම්මන්ත්‍රණ මාලාව," an island-wide program that aspires to guide, encourage, and empower these eager minds as they prepare for the Grade 5 scholarship examination.

Our collaboration with this initiative initiated by Sri Lanka Rupavahini Corporation is driven by a passion for nurturing potential and a belief in the transformative power of education. Through this partnership, EWIS aims to provide these budding scholars with the tools and inspiration they need to excel in their studies.

The program, set to commence on the 13th of August 2023 in Kamburupitiya's Upali Wijewardana Hall, promises a day filled with learning, engagement, and discovery. Over a thousand participants and their parents will actively participate in this event, which has been designed to foster a love for learning while preparing for a significant educational milestone.

By joining forces with the "පුංචි අපේ නැණ මිහිර ගිණයත්ව සම්මන්ත්‍රණ මාලාව," EWIS is committed to supporting these individuals beyond just academic achievement. We recognize that a holistic education is one that nurtures character, curiosity, and creativity. Therefore, alongside preparing for exams, the program aims to cultivate lifelong learning skills that will serve these participants well into their futures.

At EWIS, we firmly believe that education is not only about preparing for exams but also about shaping the leaders, innovators, and thinkers of tomorrow. As a technology partner of this inspiring initiative, we are excited to contribute to a brighter future for these eager minds.

In the spirit of collaboration, I invite you all to join us in championing education, nurturing potential, and empowering the next generation. Together, we can sow the seeds of success and cultivate a future that thrives on knowledge, innovation, and endless possibilities.
